

Bangle Bracelet Measurement Guide

Sizes are determined by the size of your hand not wrist.
 Tuck your thumb into your palm toward your pinky (as if you were putting on the bangle). Using a tailor's tape or the printable guide below, measure your hand all the way around the set of knuckles closest to your wrist. Compare the measurement to the chart below to determine your size.

Bangle Bracelet Measurements
XS 6 ½" - 7"
S 7 ¼" - 7 ¾"
M 8" - 8 ¼"
